DIARY NOTES

A-DD/S

9 March 1966

25X1A

1. Mr. [REDACTED] has been appointed the Liaison Officer to the Senior Interdepartmental Group which we are told will serve as sort of a senior Court of Appeals for matters that cannot be resolved in the IRG and CG's.

25X1A

2. I asked [REDACTED] to look into the inadequacy of incoming telephone lines to the Agency. I have had several reports that people are having difficulty in getting the Agency [REDACTED] numbers, in the morning hours at least.

25X1A

3. Col. White, John Richardson, and [REDACTED] briefed Mr. Helms on the Career Training Program. Mr. Helms was extremely impressed, felt that we had an outstanding record, considers this an exemplary program for all of government, wants a letter to John Macy describing our program and how good it is, wants Col. White to talk to the Directorates and call their attention to the importance of allowing people to enter the CTP from other duties, and wants a brief paper from [REDACTED] on what kind of testing a CTP applicant has to undergo. He recalled that one time he had taken the current events portion of the test and had been impressed by how difficult it was. I would like for Mr. [REDACTED] to follow up on the memorandum to the DDCI on the testing, on the briefing of Directorates by Col. White and [REDACTED] and to affirm that Col. White himself is going to write the letter to John Macy.

4. I discussed with [REDACTED] his plan to bring [REDACTED] into his staff to assist in the management reporting system now being established. I agreed that [REDACTED] could use another officer. However, we continued to disagree somewhat on what kind of reporting the offices should be doing and how much prior analysis this reporting should receive by the SPA. Hopefully, we will have some reporting in order to show to Mr. Bannerman on the Office of Personnel so that we can get additional guidance.

25X1A

5. [REDACTED] called to say that the 23rd for [REDACTED] for the Director is O.K. I asked Mr. Richardson to prepare a schedule starting with lunch and working back allowing time for TSD in the morning, after talking to [REDACTED] about this, and scheduling the departure [REDACTED]. Then, after lunch, he could calculate the time required for the weapons and Patch Test demonstrations and schedule the return. His scenario should include the names of the people to have lunch with the Director, a suggested list of people to accompany the Director, and other special arrangements. This should be prepared in draft form and given to [REDACTED] who will check it out and make deletions and additions.
